Experience

Red Ventures / Front-End Developer

APR 2019 - CURRENT

- Collaborated with design and business stakeholders to develop a greenfield authenticated web app experience for MYMOVE.
- Planned and executed a full rewrite of the USPS suite of applications including test coverage and a design system component library for long-term scalability and maintainability.
- Led A/B testing efforts to drive increased user conversion for the MYMOVE funnel.
- Built Allconnect internet provider partner widgets to blend into sites like CNET, Bankrate, and MYMOVE.

Kaeser Compressors / System Design Engineer III

JUL 2014 - APR 2019

- Significantly sped up air system audit processes by automating data processing and presentation report generation.
- Implemented pressure band controls to improve energy efficiency in large scale industrial air compressor systems.

Education

Virginia Commonwealth University / RICHMOND, VA

Mechanical Engineering
