EXPERIENCE

FRONTEND ENGINEER
15Five
2022 - Present

- Feature dev on a table multi-filter system to improve user experience when looking through large data sets
- Pushed for documentation standardization and process
- Gathered buy-in for refactoring SASS styles with TailwindCSS to reduce the amount of unused css shipped to the client

FRONTEND DEVELOPER
Red Ventures
2019 - 2022

- Collaborated with design and business stakeholders to develop a greenfield authenticated web app experience for MYMOVE
- Rewrote the USPS Change-of-Address web apps from TDD and built a design system component library for maintainability across USPS projects
- Led A/B testing efforts to drive increased user conversion for the MYMOVE funnel
- Ported existing Allconnect React app to be dropped into a parent site such as CNET or Bankrate

EDUCATION

BACHELOR OF SCIENCE IN MECHANICAL ENGINEERING

Virginia Commonwealth University

Richmond, VA
